its nice to get traffic and weather in places you can't pick up AM and FM radio. This is a big reason why I bought the XM radio. I pay for the service, so why can't I use this product?

I don't want to set through 15 minutes of, "listen to our station and we will pay you 1,000,000 dollors or come down and see us live so you can get solicited to buy something", to get to a traffic report.

for 26 years I've been there and done that!

Able to pay for what you want is a BLESSING!!

I will never listen to FM or AM again, Have not in almost in 2 years, why start again?

XM+Siraris+Mp3 player+internet radio = The end to POP culture radio (FM/AM) Thank GOD!!!!!!
